Dan, the modifications you request in the attached work plan addendum are consistent with discussions we had in the field while I was on scene from January 28 through February 3 and the overall scope and intent of the work plan. These modifications are acceptable to EPA and are hereby approved. Make sure your subcontractors conduct borehole abandonment procedures in compliance with Missouri regulations on such work.

Sincerely,
Daniel R. Gravatt, PG

Dan,
Attached is the Addendum 1 that we discussed together when you were the On Scene coordinator. I received approvals for submittals. We are working on the next submittal which hopefully will be ready by the end of this week.

Please let me know if you have any questions. We will be drilling out the PVC casings and tremie grouting existing boreholes starting tomorrow.

Thank you,
Dan Feezor
